Dimensions

- **Master carton quantity:** 6

Power

- **Battery lifetime:** 12
- **Number of batteries:** 2

Accessories

- **Battery:** Yes, CR2025 Coin cell Battery 3V Lithium

Product highlights

4in1 home entertainment remote

Replace a table full of remote controls with one unit that'll operate your TV, satellite receiver (or cable STB set-top box) DVD player/recorder and receiver (AMP), regardless of the brand or model.

Pre-programmed for Philips

If you have Philips equipment, you can use your universal remote control without programming it because all keys are pre-set for Philips.

Ultra flat

A remote with ultraflat design is slimmer than a standard remote. This is made possible by replacing the standard batteries by coin cell batteries (the size of a coin) that take less space.

Dedicated menu keys

Dedicated keys to move easily around your equipment's menus mean simple one finger operation without having to press shift or function shift keys

Device mode indicator

Small lights keep you informed about which device mode is currently active.

Battery-low indication

To know in time when the batteries need to be recharged or replaced.

Auto brand search

Getting your new remote control working is simply a case of having your remote automatically search for the most suitable code for your equipment.
